

Introducing a **day-long** Employability Readiness Lab for first-year MBA students

Hiring is at a five-year high. MBA employability is falling.

The gap is **readiness**, not opportunity.

72.76% MBA employability, 2026 ↓ from 78% in 2025	40% Hiring intent, FY26–27 ↑ from 29% last year	56.35% Overall India employability ↑ from 54.81% in 2025	~8 sec Initial CV scan time recruiters work with
--	--	---	---

Source: India Skills Report 2026 (Wheebox). CV-scan time is a widely cited approximation.

How placement-ready is your first-year MBA batch **today**?

Most institutions discover readiness gaps **only when placement season begins**, when there is no time left to close them.

Recruiters now look for "applied, cross-domain managerial expertise" (India Skills Report 2026). Students who can't show it on a CV are screened out early.

Not another CV workshop or guest lecture. **A measurable view of your batch's employability.**

The Lab is the first intervention and every step is scored.

Run once A clear snapshot of where your batch stands	Run every quarter Your own early-warning system, well before placement season
--	---

WHAT WE OFFER

One day on campus. Six steps. A 90-day plan.

01 Baseline A readiness score for every student, before the day begins	02 Orientation What the market expects, set against your batch's data	03 CV Clinic ATS basics, tailoring to a JD, and teardowns of ₹1 crore CVs
04 Mock Interviews Live on stage, then student takes a turn	05 Development Plan Target role, Plan B, skill gaps and three dated goals	06 48-hour Rescore Updated CV and IDP, scored again for the after-picture

EVERY STUDENT LEAVES WITH

A personal readiness score	An idea of ATS-ready CV	Live interview practice	A 90-day development plan
----------------------------	-------------------------	-------------------------	---------------------------

WHAT YOUR INSTITUTION GETS

A batch readiness report your placement team can act on.

Who is ready A baseline view of the whole batch	Who needs support Named, not guessed	Where the gap is Clarity, domain, CV, interview or evidence	Did it move? Before-and-after scores, every quarter
---	--	---	---

Scored across five pillars: **Career Clarity · Domain Readiness · Professional Brand · Career Capital · Career Evidence**

WHY THE FIRST YEAR

YEAR 1 → CV BUILT → INTERNSHIP → PPO → FINAL PLACEMENT

The CV is built in the first term. **By Year 2, the same gaps are expensive to fix.**

Supports your accreditation documentation

Supporting evidence only. It does not guarantee any score, ranking or accreditation outcome.
